Hy-Lok

Hy-Lok Two Ferrule Tube Fittings

Compression two ferrule design
Vibration resistance
Complete interchangeability
Gaugeability
Excellent make up and re-make life

Double Block & Bleed Valves

API 6D Design & API 607 Fire Safe
Dual Ball Design Double Block & Bleed
API Up to 10,000 psig
ANSI #150 to #2500
Availiable Special Customized Design
Availiable Up to 6 inch

Manual Ball Valves

API 6D Design & API 607 Fire Safe
Available Up to 6 inch
API Up to 10,000 psig
ANSI #150 to #2500

Cryogenic Valves

Trunnion Top Entry
In Line Maintenance
Cavity Pressure Relief
Available Up to 8 inch

Ball Valves

Low Pressure Ball Valve

- Pneumatic, Multi-Purpose, General service

Trunnion Ball Valve

- High pressure service, CNG fueling system

Swing Out Ball Valve

- Instrumentation, Oil & Gas process

High Pressure Ball Valve

- High pressure service, Oil & Gas process

Needle Valves

Integral Bonnet Needle Valve

- Instrumentation, General service

High Pressure Needle Valve

- Instrumentation, High pressure service

Manifold Valves

Instrument Manifold/ Gage/ Root Valve

- Pressure & Differential pressure measurement
